Division 29 Mission

The Society for the Advancement of Psychotherapy addresses the unique needs of psychotherapists and psychotherapy researchers, educators, supervisors, and trainees interested in advancing the field of psychotherapy.

A strong voice for psychotherapy and home for psychotherapists, the Society for the Advancement of Psychotherapy is committed to preserving and expanding the theoretical and evidentiary base for psychotherapy and psychotherapeutic relationships, supporting life-long learning of psychotherapeutic skills, as well as making the benefits of psychotherapy accessible to all. The Society is an international community of practitioners, scholars, researchers, teachers, health care specialists, and students who are interested in and devoted to the advancement of the practice and science of psychotherapy. Our mission is to provide an active, diverse, and vital community and to generate, share, and disseminate the rapidly accumulating evidence base in clinical science and practice.

Why Join Division 29?

Home to psychologists and mental health professionals from across the globe who are interested in psychotherapy.

If you are a psychotherapy practitioner, researcher, theoretician, trainer, clinical supervisor, or student, **welcome home!** <https://societyforpsychotherapy.org/>

Things to Know about the Virtual Convention

The APA Convention has gone virtual this year. Although there will be some live events scheduled during the August 6 – 8, 2020 Virtual Convention dates, our Division 29 sponsored symposia will be pre-recorded and posted for “on demand” access on August 6.

Attendees will receive up to **12 months of on-demand access** to hundreds of APA 2020 Virtual sessions and thousands of posters.

The Division 29 Program is outstanding and includes timely and relevant presentations. You will be able to access these sessions anytime, on demand beginning on August 6, 2020 through August 1, 2021. As such, there is no comprehensive program *schedule per se*.

A unique advantage of this new format is with your registration, you will have access to many more sessions than you otherwise might have been able to attend in person. Sometimes choosing between two great sessions offered at the same time is painful – but in the new virtual format you will have access to all sessions from all divisions, as well as poster sessions.

You can register for APA 2020 at <https://convention.apa.org/>

In addition to symposia and poster presentations, Division 29 will be holding a live networking and mentoring event for students and early career members:

[Gab with the Greats: Meet with Psychotherapy Experts](#)

Date/time: Saturday, August 8, 2020, 2:30 PM - 4:20 PM EDT

Attendees **do not** need to be registered for the APA convention to attend this event. **This event is free for all!**

This Zoom *virtual* event includes 5 accomplished Psychotherapy researchers and practitioners who will share their knowledge and wisdom on various topics that are of interest to you all! There will be unique opportunities to interact with these Greats and ask questions! The Greats in attendance will be:

Louis Castonguay, PhD

Clara Hill, PhD

Jesse Owen, PhD

Rosemary Phelps, PhD

Rosie Phillips Davis, PhD, ABPP

Please note that Gab with the Great attendees will need to register separately for this free event, using the link below. The event will take place on Zoom, outside of the regular virtual convention platform, and event access will not be automatically available in the regular virtual convention system with paid registration.

To register, please go to this link:
