Division 29 Mission

A strong voice for psychotherapy and home for psychotherapists, the Society for the Advancement of Psychotherapy is committed to preserving and expanding the theoretical and evidentiary base for psychotherapy and psychotherapeutic relationships, supporting life-long learning of psychotherapeutic skills, as well as making the benefits of psychotherapy accessible to all. The Society is an international community of practitioners, scholars, researchers, teachers, health care specialists, and students who are interested in and devoted to the advancement of the practice and science of psychotherapy. Our mission is to provide an active, diverse, and vital community and to generate, share, and disseminate the rapidly accumulating evidence base in clinical science and practice. <https://societyforpsychotherapy.org/mission/>

Virtual Convention 2021

Register for APA 2021 at <https://convention.apa.org/>

APA 2021 Agenda - <https://convention.apa.org/agenda>

Check out the official 2021 Agenda for up to date information on Main stage events and Keynote speakers, including the SfAP - Division 29 Program and other division programming.

All division sessions will be released at the beginning of the convention on Thursday, August 12 for on-demand access by registrants. There are no timed releases for these sessions.

All pre-recorded content will be available on demand for 3 months following the convention. Downloadable materials may be included with a presentation. A unique advantage of this new format is with your registration, you will have access to more sessions than you otherwise might have been able to attend in person. Sometimes choosing between two great sessions offered at the same time is a pain – but in the virtual format you will have access to all sessions from all divisions, as well as poster sessions.

Continuing Education:

APA 2021 registration includes free CE credits for select virtual sessions (1- and 2-hour) that meet Continuing Education criteria. All CE Sessions included in APA 2021 registration are on-demand/home study courses. To earn CE credit for CE Sessions, you must watch the full recorded program, and then pass an exam (at least 75% correct with two attempts).

NEW - Communicate with presenters and Office Hours:

You will be able to send messages to presenters through APA's 2021 platform. Presenters have also been given the option to hold Office Hours, scheduled times where you can join them for a video chat, through the convention platform. Some may have also opted to share their social media information, websites, and/or contact information.
